Young Animators

Study Type

Part Time

Course Area

Computing, IT & Game Development

Course Duration

6 Weeks

Course Information

Love Fortnite? Why not learn the software used to make it!

The Young Animators Club is a series of 1.5 hour workshops designed for young creatives aged 12-15 with a keen interest in 3D Graphics and an eye for detail. Using Unreal Engine 4 you will be given the practical based knowledge to create a 3D level of any environment you dare to imagine.

Young creatives using Unreal Engine 4 will build their own 3D Environment with the opportunity to showcase their creation to family, friends and peers. This course is designed to stretch your imagination, develop new skills and provide the opportunity to make new friends.

*opportunity to showcase final creation to family, friends and peers will take place on the final week.

Additional Information

The class does not run during half term holidays
