

## **Understanding the Principles of Dementia Care L3 - Certificate (NSF) (OL)**

### **Study Type**

Online

### **Course Area**

Health & Science

### **Entry Requirements**

Although there are no formal entry requirements for this course, due to the nature and course delivery of distance learning we require all applicants to hold a minimum of English Literacy Level 1 or equivalent. It is also useful to have completed a level 2 course as preparation. This course is suitable for students aged 19 and over.

### **Course Information**

This qualification enables learners to develop knowledge and understanding of caring for individuals with dementia. Successful completion of the units will allow learners to develop in-depth knowledge and understanding of dementia and its effects.

During this qualification learners will be taught the following:

- Types of dementia and the importance of early diagnosis
- Importance of person-centred approaches in dementia care
- The role of communication, interaction and inclusion in dementia care and support
- The use of medication to support individuals with dementia.

**This course is free for adults aged over 24 years who do not already hold a Level 3 qualification.**

### **Progression**

Apply for an HE course relevant to your chosen field.
