

Sport Coaching / Activity Leadership Academy

Study Type

Full Time

Course Area

Sport & Sport Science

Entry Requirements

Learners should be at least 17 years of age and be able to communicate effectively in English, this includes listening, speaking, reading and writing.

Learners should hold a Level 2 physical education or sport related qualification.

Course Information

Learners on this course will undertake a significant work-based placement with one of our key partners on a regular basis. This enables learners to build on the knowledge gained in lessons and demonstrate skills in the workplace.

Learners will be involved in assisting experienced sports coaches and activity leaders in school physical education lessons, after school clubs, holiday camps, events and more.

By the end of this course, learners will have all the experience, skills and qualifications needed to gain employment as a sports coach/activity leader or progress their education further.

This includes:

- Level 3 Delivery in PE and School Sport;
- Level 2 Multi-skills Development in Sport;
- First Aid at Work
- Safeguarding and Protecting Children

On successful completion on this course, you will be offered the opportunity to interview with one of our key partner organisations, in the hope to secure you paid employment, and your first steps into the diverse sector of sports leadership.

Progression

The Level 3 Activity Leadership Academy Programme supports progression into the sport sector and further education. Possible careers could include sport coaching or activity leadership or further study.
